CONTROL PANEL

THIS WEBINAR IS BEING RECORDED
We acknowledge that we are on the traditional territory and homelands of California Native Peoples. These Nations include over 120 federally recognized tribes and many other non-recognized tribes that are all very culturally diverse. We thank these Nations for their generosity, and we keep them in our hearts and thoughts as we are in this space today, this week, and every day.

Please type in your name, pronouns, agency and location
AN APPROACH TO PREVENTION

that starts with people and ends with innovative solutions that are tailor-made to suit their needs.

IDENTIFY

community centric prevention strategies.

"When you understand the people you’re trying to reach—and then design from their perspective—not only will you arrive at unexpected answers, but you’ll come up with solutions that they’ll embrace."

OPPOSITE THE FRAMEWORK

of common enemy intimacy/connection. – Just like coping, can create an enemy out of strategies used to regulate our nervous systems. We look to barriers as the enemy, it is not the barrier itself it’s the environment that fosters the barrier, the power of the why?

AN ENVIRONMENT OF

collaboration among preventionists and communities. Framework for how they can implement these strategies into their own agencies

IPV Prevention Strategies Using Inclusive Models and Methods
DEVELOPING GLOBAL, COMMUNAL, FAMILIAL, AND INDIVIDUAL IPV PREVENTION STRATEGIES

HUMAN CENTERED DESIGN (HCD)

Focus on people
- People-centered
- Context
- Create & develop
- Appropriate for the individual/community

Everything is a system
- Intersectionality
- Interconnected parts of individual lived experience/stories

Solve root problems
- Understand and solve the right problems
- Root causes
- Underlying fundamental issues
- Symptoms will keep returning

Start with small & simple interventions
- Iterative work, don't rush to a solution
- Small, simple interventions
- Continually evaluate, test, and refine
- Meet the needs of the people you focus on

**ASSESSMENT STRATEGY**

COMMUNITY BASED PARTICIPATORY RESEARCH (CBPR)

- **Participatory Co-Design**: Stakeholders - Reps from community orgs. CAB determines content. Provide resources and feedback used to inform.
- **Anchoring Dialog Through Community Voices**: Community Advisory Board (CAB) determines content. Increases comfort and honesty among participants. Insights from their own first-hand knowledge. Community lead research efforts.
- **Community Driven Discovery**: Community lead research efforts. Increases comfort and honesty among participants. Insights from their own first-hand knowledge. Gather relevant information more quickly.
- **Idea Generation**: Problem-focused to solution-focused. Written responses to prompts. Small group reciprocal dialog. HCD Story boarding.

**PARTICIPATORY APPROACH TO PREVENTION**

- Strategies to engage participants in reciprocal dialogues
- Solutions to violence exposure
- Key speakers - range of constituencies "Meeting of the Minds"
- Bi-cultural, personal, and professional perspectives

Dialogue, Reflection, and Action; creating a continuous feedback loop, to reduce health disparities and increase equity.
WHAT’S THE WHY?

• BREAKOUT ROOMS
  • 1 asks why
  • 1 answers
  • Try for 6 rounds of why
  • Switch roles for the next question
    • Why are there so many unhoused youth?
    • Why is human trafficking so prevalent?
    • Why are parents/caregivers so freaked out by Sex Ed?
PREVENTION AT THE PARTNERSHIP
